This selective bibliography covers library services and materials for the culturally, educationally, or economically deprived in the United States and Canada. It includes 365 references to journal and newspaper articles, reports, books, bibliographies, theses, and pamphlets published from 1960 to Fall, 1968, with emphasis on materials dated 1965 or later. Citations were obtained from a literature search and correspondence with library and project directors and appropriate Divisions of the American Library Association. The bibliography is divided into four sections. Section I covers background and specific aspects including federal legislation and programs; literacy problems; children's, young adult, and school library services; minority groups; rural disadvantaged; and library materials and materials selection. The other three sections list references to individual projects and programs; conferences, institutes, and workshops; and materials lists. (CC)

The ERIC Clearinghouse for Library and Information Sciences is a joint project of the Educational Resources Information Center of the U.S. Office of Education and the University of Minnesota Library School.

INTRODUCTION

This selective bibliography covers library services and materials for the culturally, educationally or economically deprived in the United States and Canada. It includes 365 references to journal and newspaper articles, reports, books, bibliographies, theses, and pamphlets published from 1960 to Fall, 1968, with emphasis on materials dated 1965 or later.

Citations have been obtained from a literature search and correspondence with 30 library and project directors and appropriate Divisions of the American Library Association. The following sources were used in the literature search: *Library Literature, Bulletin of the Public Affairs Information Service (PAIS), Education Index, Reader's Guide to Periodical Literature, Social Sciences and Humanities Index, Library of Congress Catalog, Books: Subjects, Monthly Catalog of U.S. Government Publications, U.S. Government Research and Development Reports, Research in Education, ERIC Catalog of Selected Documents on the Disadvantaged,* and the ERIC/CLIS document collection. In addition, bibliographies on the topic were examined, as well as footnotes and references in relevant publications.

In selecting materials for the bibliography, items providing substantial general and background information on library and library-related activities as well as those describing specific projects were included. News items have been included only for projects for which no other references were found.

Contacts with individuals active in the field have made it possible to include in the ERIC system materials which previously were not generally available to the public. If a citation includes an ED number and price, the document is presently available from the ERIC Document Reproduction Service (EDRS), The National Cash register Company, 4936 Fairmont Avenue, Bethesda,Maryland 20014, and should be ordered by the ED number. "EDRS in process" indicates that the document is being processed for the ERIC system and will be available from EDRS when listed and abstracted in *Research in Education,* the monthly ERIC bibliography.

The bibliography is organized according to the following classification system:
